JAMES T. KELLOGG,
JOHN F. EDDY,
P. W. REILLY,
School Commissioners.

To the Board of School Directors and Citizens of the Town of Rutland:

I submit herewith a report of the School Department of the Town of Rutland.

At present, all five of our rural schools are "Superior". Rutland County has fourteen "Superior" schools, the largest number in the state; of this number, five belong to our town. Ours is also one of the very few towns in the state to have one hundred percent "Superior" rural schools.

To be rated "Superior", a school must be in first class condition inside and out, employ a trained teacher, who makes use of modern, up-to-date methods and text books, and who shows loyalty to her school and profession.

The pupils of such a school must show evidence of good citizenship and interest in their work. The school itself must receive hearty and loyal support from all its patrons. I believe that the schools of our town fulfill all of these needs.

The work of rating four room schools, such as the Center building, has begun this year. This building has not as yet been officially rated by the state department, but we hope to receive a Standard, if not a Superior plate.

A Standard rating is the one usually given for the first year. There are several points, such as the appearance of

the grounds, condition of seats, etc., that will gradually be remedied during the next few years.

During the past year about one thousand dollars has been spent in making much needed repairs.

The interior of the Center school was re-decorated, the heating and plumbing systems repaired and new curtains added.

Through the efforts of the Parent Teachers' Association, the back yard is being filled in and graded. The filling is being given free of charge by the Vermont Marble Co.

The Dyer school was painted inside and out and electric lights installed. A new fence which is needed at this school will be added in the Spring.

At Mill Village school the shed was painted and repaired, and a new fence erected.

The school grounds at Cheney Hill and Post schools were filled in and graded.

The school board hopes to adopt a policy whereby one school may be repaired each year. We hope that by following this plan, all of the school property can be kept in first class condition.

Three years ago the State department issued a bulletin asking that every school in the state make "Good Attendance" their special project for the next few years.

The teachers and pupils have put their best efforts into improving attendance. As a result, the per cents each month compare very favorably with larger school systems where a truant officer is regularly employed.

Of late our school attendance has increased. At present we have about two hundred fifty children in the elementary schools and four elementary tuition pupils. We have forty pupils in Rutland High School, one in Troy Conference Academy, three at Mt. St. Joseph's Academy and three at West Rutland High School.

Our town is most fortunate in having a one hundred percent trained teaching force, who are putting their best efforts and interests into their work, and are working daily

for the betterment of our schools.

Respectfully submitted,

MARGARET C. McCORMACK,
Supt. of Schools.
